Those players who compete in 3 or more of the 5 Grand Prix tournaments will be considered before all other players. Those players who only play in 1 or 2 Grand Prix events will be considered only if there are insufficient numbers for the Grand Prix finals tournament. Eight players from each Grand Prix event will be invited to attend the Grand Prix finals day - to be hosted by named association - and will participate in a full round robin to decide final placing. Prize money will be distributed to the 1st, 2nd, and 3rd place getters in each event at the Grand Prix finals. Players can only enter one category on the finals day. If a player has qualified for more than one event at the Grand Prix finals they will be asked to nominate a single event to compete in on the finals day.

The Northern Districts member associations wish to encourage all players to support all events on the Grand Prix schedule both for their own benefit and the benefit of the member associations.
